Apply CSS

- ### Online Interactive CSS Cheat Sheet
- CSS Cheat Sheet contains the most common style snippets: CSS gradient, background, button, font-family, border, radius, box and style shadow generators. All these and other useful web designer tools can be found on a single page.
- Test the generated style sheets clicking the blue arrows pointing down. This will populate the interactive HTML-CSS editor on the bottom of the page with your CSS code and a demo HTML markup, giving you a live preview to test and adjust the code further.
